(Japanese expression ver.)

「ダメ元推奨、三段論法！！」

(English expression ver.)

“Let`s try it,” DaMeh-Motoh” action!!

By Hop, Step, Jump theory!!”

(Japanese expression ver.)

「ダメ元推奨、三段論法！！」

「気の済むようにやってみたら。もう止めないから。

止めたって聴く様なお前さんじゃないから。

もう疲れっから無駄な事、すんの止めた。

イノシシは壁にぶつかってぶっ倒れるまで止まんないって言うし…」

「ん？ポホロ、ドウシタ？エラ物分かりがイイというか、ヤケクソ気味というか、ケツまくってるというか…」

「アタイ自身もお前さんを軌道修正させて、問題ないように枠の中に戻そうとするの、ヤニなっちゃったし…」

「でも、シャチョ、身勝手は、あきまへん。

シャチョには飯を食わせなきゃいけないワテ等社員とその家族がゾロゾロおまっさか。

それを忘れて好き勝手し放題してはなりまへん。

先ずは其処を考えて、大人になって貰わん事には…」

「普段、ズッコケマクリのお前からそんな「大人びた」意見が出るとは思わなんだ…」

ちと、びつくシ…」

「其れにシャチョ、みんなが好き勝手な事したら、此の世の枠がぶっ壊れて、まいます。日頃大切にしなきゃならんと言っている地球様かて、壊れてまいまんガナ。

そこは、其れ相応に自制して戴かん事には…」

「どうしたお前、今日、熱でもあるんか？どうもいつものお前と違うんで調子狂うわ。それに、お前の言う事はもっともらしく聞こえるが、豈図らんや、意外とそうとも限らんような気もするぞ。

みんなそう言われて矛先を収めてきたようだが…

なんか、違うような気もする。

たとえ話で言えば、枝が同じ方向に延びるから、混みあって枝同士は窮屈になるし、受量太陽光不足で立ち枯れ頻度も上がる。

それがみんな、点でバラバラな方向に延びていけば、枝そのものも、空いていて動き易いし、各々の枝がそれぞれに太陽一杯浴びれて立ち枯れの恐れも減る。

一方向に伸びると込み合っていて自力発電できそうもないから全数外部エネルギーに頼る必要があるが、それよりは、てんでバラバラに伸びた方が、太陽光自主接種可能分、自力で一から作り出す発電エネルギー必要量も少くなる事が考えられ、総和必要量も案外少なくなるかもしれない。

だから一概に同じ方向を向いて、横並び「全社一丸」が正しいとも言えない様な気もする。

確かに、近所の人が枝を刈るのには、まとまって伸びていた方が、一発で刈り取り易くていいのかもしれないが…それは管理上の問題でしかない気もする…

その辺は実際に「遣ってみなきゃ分かんないんじゃないの？人の受け取り方、運用の仕方によっても違って来るだろうし…

残り時間も少ない事だし、案外、絶対に外せない最後の賭けかも知らんが…

時間がないと言いながら矛盾してる言い方の様だが、そこは、ダメもとで試してみるしかないの？

ま、矛盾のないモノはない訳だし。それに初めの提示段階で矛盾の無い案で、上に対する説明がしやすいだけで、意外と外れる事も多い訳だし…」

「何はともあれ、理屈抜きで、商売に専念してよね、ワカッタ？シャチョ？あん？

人間、ボケてりゃなにやっても許されるってもん、ちゃいまっせ！！シャチョ！！

わかっていんの、シャチョ、あん？」

「確かにそう言われてみれば、そうカモ？

常日頃、論理的且つプラグマティックな思考を売りにしてる宇宙危機管理官のアタイ、迷っちゃう

激しく揺れる、女ごころ…リンダ、こまっちゃう～オロオロ」

「これしきの事で狼狽（うろた）えるでない、小童（こわっぱ）！！元々ダメモト、ゲンキの素であろうモノを。よいか、小童！！心致せ、肝に留めよ！！わかったか、小

童！！ナハナハ！！」

「わが社の事を、人呼んで🎵キチガイ部落🎵と言われている事を、シャチョはご存じないのか…」

「なのにネパちゃん、何でこんなところにいつまでも居んのよ？」

「さあ、ワテにもよう分りまへんのや。損得だけ考えたら答えはNGにきまってまんねんけど、救いがたい吾人を見捨てていくのはなんか気も引けますし。

それに「ダメモトの結末」を見たいような、怖いもの見たさの好奇心もおマスし。

そのへん自分でもようわかりまへんのや…損得天秤、壊れてる様だすねん、ワテの…」

(English expression ver.)

“Let`s try it, “DaMeh-Motoh” action!! By Hop, Step, Jump theory!!”

“Have done it as you like. No to stop you anymore, from my side, never.

Hey you, Darling, you are not a guy who can accept other one`s advice.

I`ve gotten so exhausted, that waste action, I`ll stop it!!

Wild pig never can stop running until crushing the wall, I heard of it.”

“N? Poholo, what happen? It`s very rare, very smooth, you!! Or to got turned to be defiant, or got turned to be no acceptable, rejecting me, throwing me away?…”

“Me own also got turned it to be too much enough, it means that repairing you and forcing you back to limited, fixed frame.”

“But, boss, never take a selfishness!!

You have staffs and staffs` so many family members whom you have to feed up.

Here you have to take a adult behavior!!”

“Usually, kiddy you, from you, thus adulty opinion coming out, until now I never can imagine. Little bit got surprised!!”

“And boss, if everyone lets each one do as each one likes, the frame of our human society will get broken. Our planet which you always talking about also will get broken by above human behaviors, the possibility we have.

At this point, I wish you have to save and control own behavior as possible as you can.”

“what happen on you, Nepali!! Don`t you have fever in your brain? Your saying now is quite different from as your usual, An? me little bit gawking, slipping down!!

And your saying sounds reasonable once, however, your insisting point might be out of hitting, the possibility there is.

From it, , getting said it, until now everyone stop against-insisting, looked like…

But above “to stop against-insisting” might be wrong, looks like, I suppose.

Saying, in the case of using analogue, “even though the branches of tree is growing up

within same direction, getting turned to be so crowded, that to each branch is getting tight, and necessary sun beam is getting not enough, so that getting turned to be dried, the possibility hi up.

But if, in the case of growing up direction is random, each branch can get smooth moving and can get enough sun beam shower one by one branch, so that danger of getting dried is getting reduced also.

On one hand, in the case of toward only one direction branches growing up, so many cases to each other disturbing for getting sun beams, that all energy power own have to make.

But on the other hand, in the case of random branch growing up, so that, several amounts sun beam supporting branches, from it, not so many own making power needed, the possibility they have, it might bring total sum energy power saved, might be a.

Therefore, facing at toward the same direction, “one team united”, on the same start line set is not well, the case we have.

Sure that for neighbors cutting branches, united toward one direction branch growing up might be better...but it`s merely only technical matter, I suppose...

About it, have to try it have done in actual base., might be, judging correct or not, difficult?

Because other one how to accept it, or how to operate it, might it be not the same, usually each by each, different, I know.

On one hand,

The remained time stock is very few, but unexpectedly, it might be the last chance for bet which we never hit it out, might be...

While insisting no time got remained, it might sound contradict, but might no have other way except “all condition is bad, it`s a normal, I know, but will stick to my gun!!”, might it be, I guess.

Anyway, no contradict one, no there is. Additionally, at the first time offered proposal of no contradict one, in so many times, unexpectedly it got turned to be out of hit because of only can easily explain to boss, the cases so many happened.”

“By the way, any way, without theory, focus our business only, understand, boss, An?

In the case of human brain is non focus, foggy, the non focus brain holder guy`s every having done matters all will get allowed is never thus!! Don Qui Hote Boss, do you understand? boss, An?”

“Sure that your insisting might be correct, I heard of it, me got noticed!!

“After it, get shaking radically, my woman`s heart!! “me can`t decide it!! Usually cool me, as a cosmos crisis management officer`s sales point of , me gets confused, OMG!!”

“Never get upset by thus tiny!! Baby Kid!! 🎵Originally “DaMeh-Motoh(=non guarantee start)” is normal condition. This bad condition is just the source of energy power!!

Understand? Baby Kid? Memorize it in your mind!! lol, lol, lol!!”

“Our Don Qui Hote Boss don` t know arounds call our company “crazy village”, I doubt…”

“Despite of it, you Nepali Kid, why you no leave away from here, why you have stayed here?”

“Well now, why? I can` t understand why non leaving away from here. In the case of only counting p/l point, it` s never choice, the sure!!

But while being left this scrapped guy, leaving away from here is bad behavior, might be, I doubt,

And additionally, I hold mind I wish to see final result of this “DaMeh-Motoh”, like a “wish to see terrible mystery”.

About it, around it, I can` t understand my own mind. My p/l counting balancer is now not well running, why some…”
