「食材を注文すれば、なんの苦も無く自動的に手に入る時代は終わった。

お客さんはまだその世界にいて、オーダーすれば食べ物が自分の目の前に出てくるが、裏方は大変だ。食材入手の熾烈な争いを繰り返して、何を得るにも戦い取ってこなくちゃならない。

家でいえば会社勤めのお父さんは真っ青だが、専業主婦の奥さんは女子会に精を出し、子供を超難関校に入れることで夢中で、女子会で差をつけんがための見せびらかし費や塾通いの費用をお父さんにせつつく。

しかしそれも無駄になる。特に後者の場合、高効率、ハイ・スキル信奉で馬車馬のごとく走っている彼らの前に AI が出てくれば超難関校なんて意味がなくなる。

AI に学歴はないが、並の人間よりはるかにスキルが上だからだ。

おまけに給料ゼロで、しかも休みや休憩もゼロでいい。忖度しない代わりに文句も言わない。

となれば損益の観点から普通の経営者は AI ロボットに切り替えるのが大半だろう」

「お前さん、いつもの例の話ね…もう聞き飽きたわ。ほかに新ネタ、ないの？」
「シャチョ、マンネリはあきまへん。変化に合わせて次々と、新ネタ、出さんことには…」

“The era was gone, over. The era means that to order, at once automatically food material without stress getting.

On one hand, customers are still staying in above automatically offered bonus to own self, but on the other hand back side staff are in very strong troubles. Repeatedly continuing severe competitions for getting food materials, so that for offering anything, they should hunt food materials by battling.

Allegorically telling, inside home, on one side dad who work in the company, is getting turned to be pale, on the other side, madam who is no working outside and only housekeeping, is concentrating only to report to other women who were former classmate in the party how she is in a happy position staying or is concentrating own kids to pass the exam of hi class school, the money for above, madam only requires sharply to husband getting earnings from outside working.

But it will get to be waste. Especially, in the later case, in front of them who are prayers for hi-performance and hi-skill first, if AI is appearing, difficult exam for entering univ. will get turned to be no worthy. Because AI has no history of education, diplomas, and is more hi level than ordinary ones.

Additionally, AI human shape robot no requiring salary, no require rest time, 24h full work, and no complaining.

If it`s so, almost of all “normal business owner” will member-change from perspective of p/l.”
