「事前にもてはやされる生起確率の高いほうが案外、起こらないことが多い。むしろ、事前生起確率が極端に低いことのほうが起こりやすい気がする。特に起こってほしくはないことでは…。

起こってほしくないから、あえて触れずにおいたり、対応予算が足りないから、なかったことにしてしまったり…

それに、油断している分、ダメージも大きい。♪備えあれば憂いなし♪の備えが全くないからだ。備えを生起確率の高いほうにばかり向けていて、生起確率の低いほうは備えがないも同然だからだろう

どちらが起こるかは勘でしかない。

四面楚歌の中でのバカ扱い。かなり勇気がいる。

当然、生起確率の高いほうが周りを説得しやすいから生起確率の高いほうを選ぶが、たいていは外れて、事後の反省会ばかりが増えるのを何度も経験したはずだ。しかし何度やっても同じことの繰り返しでしかない…♪のど元過ぎれば熱さを忘れ♪て、♪いつか来た道♪の繰り返しだ…

が、而して、その結末は♪通りゃんせ、通りゃんせ、行きはよい、よい、帰りは怖い。通りゃんせ、通りゃんせ♪が多々、多い」

“In the pre-events as a main, happening ratio is high one, unexpectedly not hitting, the case might be so many. Rather, pre-events, happening ration is so low, the case easily happening is so many, I suppose. Especially, in the case of no hope happening, the matter might be so many.

Due to no hope happening, so that on purpose no touching it, or due to budget for prep. is not enough, so that they get no counting it.

Additionally, due to getting tension so loosen that beaten down, the damage is getting so huge. Because ♪prep. against disaster, full, anxiety is none♪ thus prep.is almost Zero. Because facing all prep. for high ratio happening case, so that almost no guarding for low ratio happening case, I suppose.

Which happens, answer of judgement is cause of human 6th sense.

Getting surrounded by against, getting treated as an idiot, against thus, getting required brave, so deeply.

Certainly, people will select high score, the one because common sense holding arounds agreement is easily catchable, but in almost cases, this selection is not hit. After it, case-study by regret, the meetings only increase, we already experienced, in so many times, as a fact. But despite of so many times experienced repeatedly, no learn. Repeating the same way always.

But in real, ♪Come on, come on, going way is well, but returning way is fear♪so many, we have!!!”
