「洋の東西、ちゃんぽん鍋」

「♪はじめちよろちよろ、中ぱっぱ。赤子泣いても蓋とるな♪

これがわが国古来のうまい飯の炊き方だそうだ。

どうも西洋と東洋では考え方が違っているとしか思えない。

西洋ではスタートアップは、一気呵成に駆け上がることがよしとされるが、東洋では、何事も始めからうまくいく訳はないと考える。

だから「はじめちよろちよろ」になる。

これを一気呵成じゃないといけないと、わが国の昨今の起業家は読者受けする記事さえ書けばいいだけのメディアに乗せられて、考え違いするから、起業5年目で9割9分の会社がつぶれる。5年はうまくいなくて当たり前という考え方がないから早々にあきらめてしまうわけだ。残りの1分(ぶ)が「中ぱっぱ」を経験できるが、その先、慌てて蓋を取ってはいけないというところまでいかないで「失敗は成功の母」の真逆をしでかしてし

まう。つまり「成功こそ失敗の母」をだ。

そして蓋を慌てて取らずに、じっくり蒸らして、火が中の芯に通るまで待つ。

そうするとうまい飯が炊きあがる。

東洋は「時間をかけ」、西洋は「一刻も早く」の考え方の違いがあるようだ。

東洋は「ある程度時間に任せ」、西洋は「時間内にねじ伏せようとする」とでも、もうし

ましようか…どちらがいいかは、わからないが、そういう違いがあるようだ

わが国は洋の東西をちゃんぽんにしてしまっ、訳が分からなくなっているようだ…

そもその味付けに失敗して（調理法を間違えて）しまっているようだ…」

「お前さん、10年近くたってまだ芽が出ないのは、種の巻き方か畑の選別の仕方、間違えたんじゃない？」

「その心配は往々にしてありえる…ねえさん、さすが、スルドイ！！方やシャチョは、アホ、かも知れへん、どすえ」

“♪ At the beginning, slow, slow, in the mid, rush, rush, dancing, dancing, at the end, never take off the weight even if baby crying until inside getting steamed up ♪”

I hear that, above is in our country, at the ancient time, rice cooking well method.

Anyway, why some between Western thought and Oriental thought, there might be difference staying, I get turned to be just judged, except above, simply.

In the Western perspective, start-up from the first at once running hi up is well, getting counted, but in the Oriental perspective, from the first running hi-up never happen.

So that, getting turned to be ♪ beginning, slow, slow ♪

In our country recently as current entrepreneurs get misunderstanding from influence of media whose aim is only popularity getting, the “misunderstanding” means that from beginning at once running hi-up only is worthy, so that until only 5 years got past from start-up, 99% start-up companies get down, get left away from operating companies.

As they have no perspective which within 5 years can get in success is normal, so that within 5 years they gave up continuing, from it, the left 1% can experience of “rush, rush, dancing, dancing” stage, however, as they, at too much early timing, in panic mode, take off the weight, they no can get tasty rice meals. it looks like proving “success is mother of defeated one”, which generally we say “defeated one is mother of success”

It looks like that oriental perspective will take so long, long time for resolution, oppositely western perspective will require as quick as possible for resolving. Which is correct?

I`m not able to judge which is correct now. But the difference might be staying, looked like.

In our country, random food materials mixed pot with Western and Oriental perspective, so that our thoughts might get jammed, looks like...
