“From unbelievable, strong, Boo!! Boo!! reason”

(Japanese expression ver.)

「ブツクサの「ブ」。ぶっ飛びの「ブ」。力を込めて「ブ」！！」

「今のAIの限界は「ぶっ飛んでない」事だろう。

競争相手はAI。人間相手ではない。時には人間の固定観念を超えて対応しなくちゃならん場合も出てくる。多分人間には意味不明に映り、不評を得るだろうが…。

しかし何と言われようと、連中に勝たない事には、全く意味がない。

その、勝手（かちて）の最右翼が、「ぶっ飛んでいる事」だ。

人間に忖度しまくりで、予定調和的な回答しか出さない今のAIでは、絶対にこれには、追いつけない。

忖度しまくりの予定調和というのは、過去の模範解答からデータを引っ張って来て類推するからだ、全ての元は「過去の人間の模範解答」に依拠している。

AIが本当に意味で自立し、独立独歩の思考を始めたら、もうお手上げしかないだろうが、現時点では、まだこちらに分がありそうだ。追いつかれる前にフィールドを変えてゲームチェンジする事だ。だからもうあまり時間がない。彼らの改善スピードには驚くべきものがあるからな。油断はできない。

フィールドを変えてゲームチェンジするには、過去の固定観念に縛られた奇麗な論理など立てない方がイイ。それを組み立てる手助けに AI を使うというのは、相手を利するばかりの行為だ。確かに広報発表上は、AI で浮かれ騒いでいる昨今の風潮からすれば、高評価が期待されそうだが…

AI と人間の協業なんて言っているが、過去の歴史を見てダイナマイトや核が善用されたためしはない。確かにないと不便だろうが、彼らから敢えて距離を採って、端から少しでもこちら側に入れたい事が肝要だ。時代遅れだとのそしりを受ける事はやむを得まい。

つまり、ノータッチで見殺しにする事だ。メディアも何も報じない事だ。ましてやちようちん記事なんか書くなと言いたい…♪庇を貸して母屋を取られる♪の轍を踏むな。♪獅子身中の虫♪の本来の意味とは逆の、悪い例だ。内部崩壊して、負け戦の元になるだけだ」

「ん？お前さんよく♪勝った、負けたと騒ぐじゃないぜ～♪って歌ってたじゃないか江？」

「シャチョ、男は商売の勝負に勝たにゃあきまへん！！ねえさん、余計なこと言わんといて、下さい！！」

「この前から、二人の関係、微妙に変化してな～い？やっぱり、前がそうだったからと言って、いつもそうだろうというそんな固定観念や既得権に、この場合も縛られちゃダメだって言う事なのよね、きっと。

それを、我田引水的に言えば「我々が是から「ぶっ飛べる」可能性の暗示だと言って言えなくもない」となるぞ…ん？ちと、無理矢理、コジツケ過ぎで、却って信ぴょう性がなく聞こえるかもな！！」

(English expression ver.)

“From unbelievable, strong, Boo!! Boo!! reason”

“The limit of current now AI spec. might be no attending to “non logical”

Competitor is AI, not Human. sometimes happen having to attend to AI, sometimes when it happen, have to attend to it, over beyond human having fixed thoughts. Probably for almost of all people`s eyes, it will screen creepy, they will count us crazy guys.

But, even if it is so, except getting a win for AI team, we will get all lost.

For getting a win against AI, the most effective one is “unbelievable, strong, Boo!! Boo!! reason”, having done it, the way.

The current now level AI ability which is always ass-kissing to human, based on harmonized forecast, the answer, only can offer, they never can catch us up.

Above what i said, always ass-kissing, based on harmonized forecasting is picked up from in the past time data which is stocked as a good samples and it`s selected from human who is

fastened by fixed thoughts.

AI perfectly can stand alone independently, starts to walk on own road without human guide, it might get turned to be almighty existence. At least at now we human side might have the possibility of getting a win against AI. It`s a point for getting a win against AI to change the battling field like a game change before they catch us up. from it, we have not so enough time remained. The speed of their improvement is so hi. We never get our tension loosen.

For changing the battle field, for game changing, it might be better to no settling it up, which is fastened by fixed thoughts of the past time. For organizing story for human understanding is AI ability up, the supporting, the same activity, only. Sure that might get hi evaluation score because of AI fever condition now.

Despite of collaboration between AI and human, however, checking by past historical record, we have no occasion of good using it, for example, or dynamite, or nuclear power. Sure that, its no using is inconvenient, but dare form the first, no coming closer, putting a distance to it, no allowance giving to them, is better, might it be. It`s we never can escape from bushing, “you are old-fashioned.”

On summarized, “no touch, only allow a killing, while noticing”, also media no inform anything about it. especially, no inform ass-kissing opinion, I want to appeal.

Stop it, below case, ♪bater, lend a escaping space, never get main house stolen.♪

As a bad case, I use this Japanese analogue, ♪a insect in the lion.♪, like this, no allow from inside, the collapse, it`s the cause of lost win battle!!”

“N? you always singing, ♪or get a win, or lost a win, never have done it, like a band-wagon parade!!♪, hey you, Darling!?”

“Boss, man has to get a win at the business field!! Madam Sir, never disturb his activity, like that, stop, would you!!”

“From previous time, you 2 relationship, little bit by little bit nuance got changed, or not, An?”

“Anyway, in a former time was that so, in this time also that is”, thus copying or by fixed thoughts, or by the rights of already getting, by thus, never get fastened, thus advice is in this time also useful, might be.

Above changings, as my concept appealing, to say, is that “it`s my concept supporting signal” I can say, might it, will do it, I can, might be saying…N? little bit over pushing my concept, rather, it will force trust lost, might it!?”
